Advanced Blower Door & Pressure Diagnostics Registration

In this Advanced Blower Door & Pressure Diagnostics training an individual will visually learn the basics of pressure and its affect on home performance. Blower door and pressure diagnostics will be demonstrated on a portable and full scale model house. This introductory session is appropriate for those who have either a technical or non-technical background. Students will be required to pass a final exam on the last day of training in order to receive a certificate of completion. There is a maximum of 12 individuals per session. This is a 4 hour session.

At the conclusion of this course, the student will be able to:

- Learn the basics of pressure
- Understand how air pressure imbalances affect home performance
- Discover diagnostic pressure testing
